

## **EXHIBITION HIGHLIGHTS\_COMMUNITY DOMAIN**

### **Five Juried Exhibitions! 200 Artists from Around the World! One Week in San Jose!**

---

**Community Domain** (*def.*) Artists explore the environmental factors and natural demographics that affect our common experience.

- ***Glance*** - Guillermo Galindo and Gustavo Vazquez' sound/film installation gives voice to disenfranchised people. *Glance* juxtaposes South Bay residents talking about their vision of the future with sci-fi films from around the world.
- The ***Homes*** project by Teranah Hamami and Mohsen Emami-Nouri enters the private world of Iranian families living in the Bay Area through physical and virtual spaces that recreate the interior of their homes, narrating stories of their everyday life through portraits of space, objects, and people.
- ***MILKproject*** – Esther Polak and Leva Auzina - The *MILKproject* explores GPS visualization as a storytelling tool. The project followed one of the dairy transportation (cheese) lines from Latvia to Netherlands, from the udder of the cow to the mouth of the consumer.

***Plus!...***

- *@Silicon Valley* - Peter d'Agostino
- *Neighborhood Public Radio* - Jon Brumit, Lee Montgomery, Michael Trigilio, Linda Arnejo
